THE AFS STUDENTS

Dear Friends,

How do you like America? This is the question almost everybody asks the AFS students. AFSers have too often the tendency to see everything through one color planes. I'll try and be objective in my evaluation of the U.S.A. This way will be the best for me to make clear my ideas and perhaps for you to learn something new about us.

My first observation was the similarity between Americans and Europeans. Everybody has stereotypes in mind like the gruff German, suave Frenchman or lazy Latin American. After a while all the masks go away and you discover the real person with the same feelings and behavior as you.

What about the differences? The first would be the fact that American people more than in Europe like to be busy. It's almost an honor to have too many things to do at the same time. Maybe it's the fast American way of life.

Another characteristic of the U.S.A. is independence. This feeling is leading to the disintegration of family life. The father works all the time, the mother has her occupations, and the children are out. Europe is getting like this, but not as much.

These are some of my reactions. I'd like to thank the town of Cohasset. Its school, and all the people who made my experience happy. Friendship was the constant factor of this year. Thank you one more time.

Philippe

His Belgian AFS party.

PHILIPPE GOSSERIES — FROM BELGIUM

DAVID KEEFE

OUR STUDENT FROM BRAZIL

Dear Friends,

To explain my AFS year: Of fun-boredom, of frustration-enlightenment, of understanding-conflict, of learning-teaching, of apathy and love.

To put one year of living and evaluate all the things I came to understand about myself and people in 25 words or less is impossible. The year has made an indelible influence on me, but I'll never have a complete inventory on all that I have learned.

Being placed with a new family, friends and school where they look different, act differently and speak differently . . . then finding out that maybe they aren't so different.

Possibly because of all this, I can now look at myself and hopefully at other people with a little more understanding.

David Keefe

My Brazilian brother, Armando, sister Beatriz and dog on an average winter day.

The Class of '72 leaves . . . this poem.

ON EXISTENCE

We travel along the road of life;
hardly knowing what we are, yet
always daring to be something;
seldom saying what we mean, but
never afraid to have meaning;
sometimes failing in our endeavors,
though never tempted to cease trying;
seeking satisfaction at every level,
yet never defining happiness; often
apologizing for our existence, while
realizing that life is its own excuse.
But the real joy of our otherwise
insignificant efforts is that we are
never quite satisfied to be on the left
or right, or in the middle of that road.
We are always attempting to change its direction.
